

## 2 inch stainless steel pump Yanmar

10.3119B

the 2 inch PA series stainless steel pump  
powered by a YANMAR diesel model L48N 4.7 hp engine  
this pump head features a stainless steel body, RYTON internals and VITON® seals  
popular for pumping Av-Gas, Jet-A1 fuel, AdBlue, DEF, Urea and more etc

### features :

used for pumping Av-Gas, Jet-A1 fuel, AdBlue, DEF, Urea and more  
a lightweight, self-priming pump that provides superior corrosion resistance and highly efficient pumping performance  
this pump can be easily dismantled in seconds for rapid cleaning as required  
a wing-nut is located on the pump body clamp band for simple pump disassembly  
used commonly for pumping Av-Gas, Jet-A1 fuel, a wide variety of water and corrosive liquids etc  
features extremely corrosion resistant pump materials  
the wetted metallic components are made of 316 stainless steel  
features a double-flush volute  
this pump is self-priming and includes a built-in check valve

- code 10.3119B
- pump type HEAVY DUTY stainless steel
- engine YANMAR diesel
- engine capacity 4.7 hp
- starting system recoil
- max flow 718 lpm
- max head 31 m
- self - priming to 6 m
- pump head material 316 stainless steel
- impeller 316 stainless steel
- volute 316 stainless steel
- mechanical seal carbon ceramic
- pack weight 32.0 kg
- pack dimensions (L x W x H) 510 x 400 x 480 mm

304 stainless steel external hardware and quick release clamp

the performance :

650 lpm max flow 23 m max head @ 3600 rpm

self-priming to 6 m depth

the port sizes :

1½ BSP-F and 2 inch BSP-M inlet port

1½ BSP-F and 2 inch BSP-M outlet port
