

Wash Down - Aquaobra

Black outside ribbed layer to facilitate resistance to atmospheric agents and wear

Intermediate reinforced layer of polyester thread mesh for greater resistance

Inside anti-algae layer for food sector use

Hose made by thermoplastic rubber with polyester thread mesh.

FEATURES

- High quality hose for use on construction sites, internally reinforced by a polyester thread mesh in order to withstand substantial working pressures and provide it with a resistance to breakage from stretching
- Black grooved exterior gives resistance to atmospheric agents and wear
- Very flexible and easy use
- Resistant to atmospheric agents and chemical products
- Withstands temperatures from: -10°C to 60°C.

USES

- Construction
- General irrigation and sprinkling, gardening, horticulture, floriculture.
